75 Izabella Utca, Emelet 3 Lakás 2A, 1064, Budapest, Hungary

About me: Academic Economist with a proven track record (over 1B€ in value-added). Has strong practical and academic experience with financial analysis, forecasting, and data. The academic background was focused on the economics of innovation and pricing using growth maximizing techniques. Strong cultural awareness, global mindset, and multilingual skills gained via international experience. Has a wide array of technical skills acquired from both academic and business settings, namely, Python, Mathematica, Excel, LaTeX, STATA, EViews, Java.

## ● WORK EXPERIENCE

---

01/01/2020 – CURRENT – Budapest, Hungary

**MODULE AND ECONCOHORT LEADER – MILESTONE INSTITUTE**

---

- Lead students to understand economics in an Industrial Organization module in a personally designed course
- Economics cohort leader is a role where one must organize social events for all students with an economic aptitude.
- Student mentor, assigned a few economics students to foster the growth of their knowledge base

01/01/2020 – CURRENT – France and Budapest(remote), France

**ECONOMIC CONSULTANT – SCHUMAN ASSOCIATES AND EUROPEAN ECONOMICS**

---

- Authored counterfactual analysis of the European Energy market with and without state aid using analytics such as NPV and WACC.
- Optimized project scale, the resulting projects ranged from receiving subsidies of 55M € (for SME's) to 600M € (for Multinationals).
- Presented the economic case for subsidies to the European Commission for IPCEI funding eligibility. This included economic literature on externalities of infrastructure and numerous explicit arguments for market failures, these analyses were presented against panels of French/German/Italian/Belgian/Dutch/Danish experts who were assigned to interrogate project eligibility.
- Prepared the project portfolio of numerous projects and made a market analysis before and post-intervention in an attempt to show that the effect of entry with a significant subsidy will not give undue monopoly power to any single firm. This was achieved by giving extensive breakdowns of the effect on market shares, measure elasticities of supply, and provide forecasting of future prices, in both the hydrogen and microelectronics industries.

01/09/2015 – 31/12/2019 – Paris, France

**TEACHING ASSISTANT – UNIVERSITY OF PAIRS, DAUPHINE AND MARNE-LA-VALEE**

---

- Taught at Paris Dauphine: Economics of Uncertainty(VNM, Bayesian, insurance, etc) for 3rd-year maths students, General equilibrium for 2nd year maths students, Microeconomics for 1st-year economics students
- Taught at Marne La Valey: Monetary Economics(this included central banking, interest rates, monetary aggregates), Social Economic Policy(Unemployment, taxation and the like) both for 2nd-year economic students
- During my time at Dauphine, I also acted as the chief librarian for the MSc and Ph.D. library twice a week for 2 years.

01/05/2013 – 01/01/2014 – Nicosia, Cyprus

**CREDIT ANALYST – LOGICOM GROUP**

---

- Evaluated credit value, (regression, probabilistic models) using diverse metrics.
- Performed a series of data projects using internal company data and delivered presentations to Economic Director and Financial Analysts.
- Overlooked insurance contracting during negotiations with new clients.

- Created the first draft of an MFF compromise to meet the diverse demands of numerous European Union states.
- Researched and Analysed the effectiveness of various policies, especially direct payment versus conditional payments and the European Cohesion fund and its thresholds.
